

DOCTORiALS⁺™
ACADEMY

MEET OUR FACULTY

DR. RAIHAN RESAK

GENERAL PHYSICIAN

- As a medical educator with a passion for shaping the next generation of healthcare professionals, I am proud to be part of Doctorials Academy—a pioneering institution dedicated to transforming medical education through innovation and accessibility.
- Since joining the faculty at Doctorials Academy, I've had the privilege of contributing to an environment that prioritizes quality teaching, academic rigor, and student-centered learning.
- The academy's unique approach—combining structured academic support with cutting-edge technology—has allowed me to deliver complex medical concepts in a manner that is both engaging and easily comprehensible for students from diverse academic backgrounds.
- My experience at Doctorials Academy has been both professionally enriching and personally rewarding. I believe we are setting a new benchmark in medical education in India, and I am honored to be contributing to this mission.

DR. ZUHA AIMA HUSSAIN

RMP

- Doctorials Academy is not just another e-learning platform—it's a transformative learning space.
- Here, we focus on breaking down complex subjects into simplified, relatable content for students.
- The response I receive from students during live sessions and after recorded classes has been overwhelmingly positive.
- It's empowering to be part of a team that values both academic excellence and emotional support for students navigating the challenging world of medicine

DR. KRISHNANJALI

GENERAL PHYSICIAN

- Being a part of Doctorials Academy has been a truly rewarding experience. The platform is well-structured, student-friendly, and focused on concept clarity. The e-library is an excellent resource, helping students revise anytime, anywhere. It's great to be involved in something that genuinely supports future doctors."

DR. NITHILA

GENERAL PHYSICIAN

- As a faculty member at Doctorials Academy, I've been deeply impressed by the academy's vision and infrastructure.
- The platform allows seamless integration of theory with visual aids, case discussions, and test series.
- I've personally witnessed students who once struggled with memorization thrive through concept-based learning.
- The administration is supportive and responsive, and they genuinely care about faculty feedback, which creates a very healthy academic culture

DR. NIROSHA

PERIODONTIST

- My time at Doctorials academy was a worthwhile one.
- I am grateful for the opportunity to work with such a dedicated team and improve my teaching skills in a supportive setting.

- I find teaching students is more like a passion driven and Doctorials academy has provided me one such opportunity.
- The goal is to provide beyond the surface level understanding & engage deeply with subject matter.
- I take pride in stating Doctorials academy provides the perfect environment for this, offering a platform to not just learn but to explore more.

DR. SUVARNA

HOMEOPATHY PHYSICIAN, FELLOWSHIP IN MATERNAL & CHILD
